## JAVA DEVELOPER

Results-oriented Java backend developer with 3 years of hands-on experience in designing, implementing, and maintaining robust and scalable backend systems. Proficient in Java programming, database management, and API development, I excel in delivering high-quality solutions that meet and exceed client expectations. Eager to leverage my expertise to drive innovation and contribute to the success of your organization.

## EDUCATION

- BCA (Computer Application) | Savitribai Phule University,
- HSC | State Board, Maharashtra Stream (PCMB)
- SSC | State Board, Maharashtra Stream: General

## SKILLS

- **Programming Languages:** Java
- **Backend Development:** Spring Boot, RESTful APIs, Java 8, Wicket Apache, Hibernate
- **Databases & Storage:** PostgreSQL
- **Web Technologies:** HTML, CSS, JavaScript, Angular
- **Tools & Platforms:** Pgitea, Postman, Eclipse, STS, Vs Code

## WORK EXPERIENCE

### Software Developer | Probity Software Pvt. Ltd.

Nov 2022 - present

#### E-Governance

Probity Software Pvt. Ltd. is a leading e-governance solutions provider, offering tailored software and mobile applications for government departments, enabling transparent, efficient, and citizen-centric service delivery.

**Technologies Used:** Java, Spring Boot, REST APIs, PostgreSQL, Angular, iReport

#### Roles & Responsibilities:

- Designed and optimized RESTful APIs using Spring Boot to support scalable backend systems.
- Integrated payment gateways (EaseBuzz and Vegaah) for secure transaction processing.
- Built client-side and server-side APIs to support end-to-end application workflows.
- Designed responsive user interfaces using Angular.
- Wrote complex, nested, and improved SQL queries using PostgreSQL.
- Upheld database structures and schemas to ensure data integrity and performance.
- Provided necessary support to the client.

### Software Developer Intern | Cravita Technologies India Pvt. Ltd

May 2022–Oct 2022

Interned at Cravita Technologies India Pvt. Ltd. as a Java Full Stack Developer, gaining hands-on experience in end-to-end software development.

**Technologies Used:** Java, Spring, REST APIs, PostgreSQL, HTML, CSS, JavaScript

#### Roles & Responsibilities:

- Created and enhanced RESTful APIs using Spring to improve system performance and scalability.
- Built scalable Java backend services with efficient PostgreSQL database integration.
- Designed and integrated responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with cross-functional teams to deliver high-quality features on time.

## PROJECTS

### NOCREVALIDATION | PROBITY SOFT

**Technologies Used:** Java, Spring Boot, Microservices, REST APIs, MySQL, JWT Authentication, API, Angular

Planned and preserved a backend system for automating the revalidation of No Objection Certificates (NOCs), allowing users to extend the validity of an existing NOC for up to 1 year. The system ensures compliance by requiring applicants to reapply with all necessary documents if the NOC expires after revalidation. Key features included NOC tracking, document validation, and automated status updates to streamline processes related to vehicle transfers, construction approvals, and permit renewals.

### CIDCO E-AUCTION | PROBITY SOFT

**Technologies Used:** Java, Apache Wicket, REST APIs, Postman

CIDCO eAuction is an online platform developed by the City and Industrial Development Corporation (CIDCO) for transparent and efficient property auctions. It provides a user-friendly interface, real-time bidding, secure payments, and post-auction support, ensuring equal opportunities and a seamless experience for participants.

### MHADA E-AUCTION | PROBITY SOFT

**Technologies Used:** Java, Apache Wicket, REST APIs, Postman

MHADA eAuction is an online platform developed by the City and Industrial Development Corporation (MHADA) for transparent and efficient property auctions. It provides a user-friendly interface, real-time bidding, secure payments, and post-auction support, ensuring equal opportunities and a seamless experience for participants.

## CERTIFICATIONS

### EDGE-Full Stack Java Developer

May 2022–Sept 2022

#### Training Institute: Fortune Cloud Technologies Group

- Mastered full-stack Java development, including Spring Boot (backend), HTML/CSS (frontend), and MySQL (database integration). Gained hands-on experience with RESTful APIs, Hibernate (ORM), and MVC architecture for
- scalable applications.

## LANGUAGES

**English:** Professional Working Proficiency

**Hindi :** Full Professional Proficiency

**Marathi:** Native or Bilingual Proficiency
